6.8kg/15lbs. approx

Shipping dimensions:
44" x 8.25" x 4.25"
1118mm x 210mm x 108mm

Bag Material: Nylon

Pegasus Assembly Instructions

Kit includes: (A) Case, (B) 2 x feet, (C) 2 x Telescopic upright poles, (D) 4 x Top and bottom graphic poles, (E) 4 x Thumb screws, (F) 2 x Screws, (G) 1 x Screwdriver

1 Assemble the telescopic uprights and feet using the supplied screws and driver.

2 Align mounting holes to face the flat sides of the feet.

3 Locate and match the top and bottom graphic poles. They are identified by stickers near the shaped ends.

4 Screw each the top and bottom poles to their partner.

5 Attach the bottom pole to one of the upright assemblies, and adjust to the width needed.

6 Attach the top pole to the same upright assembly, and adjust to the width needed.

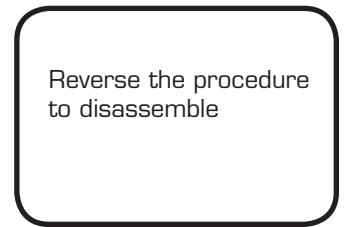

7 Slide the graphic over the unattached end of the top and bottom poles using the pole pocket.

8 Attach the loose end of the top and bottom graphic poles to the other upright pole.

9 Adjust each of the poles as needed by twisting the locking ring to the left to loosen and to the right to tighten.

Reverse the procedure to disassemble
